

REACH After Care!

REACH After Care Vision Statement

Allowing our hearts to guide us.

Striving to understand the children's motivations and see them for who they are.

Cultivating open communication and collaboration with teachers.

Implementing the foundations for a positive discipline program at After Care.

Helping provide opportunities for children to pursue their passions and nurture their potential.

Offering opportunities for kids to explore creatively and connect with nature.

Arts Enrichment

Open ended creative arts projects!

Art

Children have all of the qualities of the greatest artists within them innately. The open minded drive to play and invent processes of making without judgement is the perfect recipe for great creative innovation. I want to respect this creative brilliance and give it an outlet in the form of open ended Reggio inspired art zones. Providing talented teachers to assist with technique as well as providing materials. Incorporating varying themes and mediums. We will explore a wide range of fun and inventive projects including mixed media, textile arts, recycled art, painting, drawing, and sculpture. The students will have the freedom to create what they desire with the creative challenge of using specific materials to do so.

noel

The word "noel" is spelled out in a decorative, lowercase font on a grassy lawn. Each letter is constructed from vibrant green holly leaves, which are interspersed with clusters of small, bright red berries. The letters are arranged in a slightly wavy line across the middle of the frame. The surrounding grass is a mix of green and brown, suggesting a natural outdoor setting.

Nature

Now, more than ever it is crucial that children are able to connect with the earth and become totally inspired by the environment. Most effective environmentalists such as John Muir have had a love of nature fostered within themselves. At REACH After Care, we offer children the chance to connect with nature in new and creative ways like:

- Plant Propagation
- Nature Observation
- Wild Play Amongst the Willows and Brambles
- Water Play
- Sand Play

Nature!

Play!

Play the vital spark in childhood! There will be a balance of activity time and free time each day and I will make sure we are stocked with play equipment so your kids can move their bodies, laugh, giggle and feel a sense of freedom after being in school all day. We will also do our utmost to maintain a healthy balance between autonomy, freedom and structure so that the kids feel safe and are given boundaries.

Play!

Snacks

Healthy and tasty kid friendly snacks! The kids are also invited to become chefs and cook for their friends on occasion! Gluten free and dairy free options available upon request.
